

# Cows

From a text of a famous Galician writer Teachers remark the importance of this animal

A vet comes to the school and explains all about the importance of **cows**, they work on this topic in social science subject. In the class of art students draw different types of cows that grow in Galicia and make an exhibition at the school hall

In the class of Galician language they read texts related to this animal

In geography, they find out where the cows have relevance and they put it on a map
